## Attestation Letter

Federal Communications Commission  
Authorization and Evaluation Division  
7435 Oakland Mills Road  
Columbia, MD 21046

Houston, February 25<sup>th</sup>, 2015

Re: Attestation Letter

To Whom It May Concern:

Each signal booster is marketed under the WirEng® trademark and is individually tested to ensure compliance:

- (1) Licensee consent is not required for FCC certification equipment authorization purposes, but licensee consent does not remain applicable per 20.21 provisions for both provider specific and wideband boosters.
- (2) NPS and other compliance/safeguard features have been implemented.
- (3) NPS and other compliance/safeguard features are defaulted to be "On" (operational).
- (4) NPS and other compliance/safeguard features cannot be field-reconfigured, disabled, or removed.
- (5) This is not a consumer booster. This statement can be found on the product label and in the manual.
- (6) Future software upgrades will not cause non-compliance.

Sincerely Yours,

Sabino R. Leone, General Manager/Engineering  
Wireless Engineering Ltd Co.
